

The Veterinary Vouchers Trust has as it's priority the provision of tuition fees for prospective veterinary students who do not otherwise qualify for a Government Grant.

It is a requirement upon acceptance of a bursary from ourselves that, when qualified, the student agrees to donate his time free of charge for a period to be specified by the Trust. This is either by the provision of subsidised neutering of dogs and/or cats for people on low income, or by the voluntary support of a local Animal Charity (Registered with the Charity Commissioners of England and Wales). This could be in the form of one or two hours a week for three to six months.

Those students who come from abroad must practice in Great Britain for a specified period upon qualifying, otherwise they will be liable to reimburse the monies on return to their home country beginning within three months of the start of their employment/start of practice.

Which Veterinary School has offered you a Place?

Have you already commenced your Studies? _____

What experience/ qualifications have you with animals?

Why do you think you qualify for help with tuition fees?

Have you applied for any other grants? _____

If so with whom, and what was the result?

If you do not receive a grant for your tuition fees what alternatives do you envisage?

The Trust does not give grants for accommodation etc. If you do receive a grant for tuition fees would this be a problem?

Please give the names and details of two referees who will support your claim.
